Full-Time Employed	72.9%
Part-Time Employed	2%
Continuing Education	22%
Military Service	0%
Volunteer Service	0%
Still Seeking	0%

Initial Certification Alumni Survey Data

Part II. Alumni Survey

To gather data on completers' ability to be hired in education positions for which they have prepared and/or in other education-related fields, the Unit has an outside vendor who sent an email survey to program completers of initial certification programs during the last three years. For 2019-2020, of the 18 alumni who responded, 66.7% indicated "I sought new employment in a position related to my major area of study," and 27.8% responded, "I was already employed and continued in that position." When asked, "How long did it take to find your first full-time position after graduation?" 75% indicated less than 3 months, 8.3% reported 10-12 months, and 1 person already had a position. The Unit has a link on their website for graduates to update their contact information as well. However, these efforts have not garnered a large number of responses.
