ACA Code of Ethics Student Agreement

I have received the online link to the Code of Ethics of the American Counseling Association (ACA) provided through the website of the Program in Counselor Education at The University of Alabama. I have accessed and reviewed the ACA Code of Ethics and had all questions addressed by my academic advisor or the program coordinator for Counselor Education concerning adherence to the Code of Ethics. Specifically, I understand that the ACA Code of Ethics serves as the guide for my actions with clients, student colleagues, and fellow professional counselors.

I understand that my initial and continued enrollment for course work in the Program in Counselor Education is contingent on my compliance with the ACA Code of Ethics. I also understand that my continued enrollment in the Program in Counselor Education is founded on the primacy of the ACA Code of Ethics, even to the extent that it may conflict with my personal values. Finally, I understand that my failure to comply with the ACA Code of Ethics could affect my continued enrollment in the Program in Counselor Education.

By my signature below, I verify my clear understanding of all aforementioned facts, commitments, and expectations concerning the primacy of the ACA Code of Ethics in my status as a student in the Program in Counselor Education at The University of Alabama.
